Improving emotional health and wellbeing

Circle of Security

Jan McInnis, Program Facilitator,
Families Matter

The Circle of Security is a relationship based early intervention program designed to enhance attachment security between parents and children. Decades of university-based research have confirmed that secure children exhibit increased empathy, greater self-esteem, better relationships with parents and peers, enhanced school readiness, and an increased capacity to handle emotions more effectively when compared with children who are not secure. Please join Jan for a 1-hour session that reviews some of the key concepts from the Circle of Security attachment-based parenting program.

June 9, 2026
6:00 PM – 7:00 PM
